| 2. Are you an enrolled tribal member? | Yes | No | Tribal Enrollment Number: _____ |
| 3. Do you have a safe wood stove? | Yes | No | |

Chimney Cleaning: Yes No

Client Acknowledgement: The sole purpose of this benefit is to heat your home during the winter months. Using this wood for any other reason is considered fraudulent behavior. You are not to sale, trade, or give away your firewood for any reason. Additional requests for wood is allowed if wood is available and when everyone requests for wood is done. The Consumer Services Program distributes pine wood only and does not take any responsibility in the quality, type, and location of where the wood is delivered to. The amount of wood we do is based on the term loose cord, it is not a stacked cord. This is due to limited time, manpower, and the high request we receive from the membership. Furthermore, the program does not take any liability in any damages that may incur in either the delivery of the wood or the request for a wood stove cleaning. Furthermore, if the work crew deems the woodstove unsafe for use, they have the right to deny service for wood for safety reasons. **This service is for FY26 only. We will not be able to know what will happen next winter season.**
